

VISABILITY

DVA Rehabilitation Appliances
Program (RAP)

Product Catalogue

The VisAbility DVA product catalogue has a wide range of daily living aids, appliances and assistive technologies to assist people who are blind or living with low vision to become independent.

Please note that all items must be prescribed, and the RAP Schedule details who can prescribe whichever items. Both Daily Living Aids and Assistive Technology items must be prescribed by appropriate prescribers as per the RAP Schedule. Low Vision Clinics may be one of these prescribers along with others - please refer to the RAP Schedule.

Even if the items are low cost, and one could easily purchase them elsewhere, for them to be provided by DVA they must be prescribed using the order form.

Daily Living Aids and Appliances

Daily Living Aids (DLA) also known as Aids for Activities of Daily Living (AADL), self-care equipment, or basic assistive technology, products, devices, and equipment used in everyday functional activities by people who are blind or living with low vision.

Optical aids are devices that use magnification, to help improve vision. These include stand and hand-held magnifiers, strong magnifying reading glasses, small telescopes, lamps with magnifiers, illuminated and non-illuminated magnifiers and telescopes aids. These optical aids can be proscribed by Ophthalmologists, Optometrists and Orthoptists.

Assistive Technology

There is a wide range of technologies and tools available to assist people gain independence who are blind or have low vision.

These include the aids to assist with the use of a computer, phone or mobile device. Also includes tools, technology and software to access print materials to become more efficient at home, work, school or university.

How to Order

STEP 1.	Ensure the participant is eligible (DVA Gold Card Holder).
STEP 2.	Ensure that the product you are prescribing is on our list of approved available in this catalogue.
STEP 3.	Check the prescription conditions for approval have been met. These are available in the RAP schedule .
STEP 4.	Complete the RAP Low Vision Products Direct Order Form .
STEP 5.	Send the completed form to VisAbility resource centre resourcecentre@visability.com.au

The resource centre team will verify that it is correct and able to be filled. If the prescription does not meet this criterion, the discrepancy will first need to be resolved, or pre-approval confirmed before further processing of the order can occur.

- **ADL & Assistive Technology:** The resource centre will despatch the item to the client.
- **Orientation and Mobility Services:** Once eligibility is confirmed services may commence.
- **Guide Dogs:** Please note that Guide Dogs can only be prescribed where there is clinical need due to a war-caused injury/accepted disability.

Product Catalogue

VisAbility's DVA catalogue is divided into two main sections: **Daily Living Aids** and **Assistive Technology Equipment**. The item numbers from the Rehabilitation Appliances Program (RAP) National Schedule of Equipment are included.

Daily Living Aids

Clocks

RNIB Talking Cube Clock (CC36)

This is the simplest and most popular clock in our range. One high contrast button only with an option to set an alarm using the concealed buttons under the back cover. The cube clock features a clear male voice and excellent volume control. This clock operates on 4 AA batteries.

RNIB Communiclock (CC53)

- Cube-shaped clock which speaks the time and date.
- Tactile setting buttons on the base to set the alarm and calendar.
- Volume control dial on the front and a choice of five alarm sounds.
- Requires four AA batteries (Batteries Included).

Cobolt Talking Calendar Clock (TCLCAL)

This talking clock runs off batteries it has no display or hands. It tells you the time or date when the button is pushed with a clear male voice with an English accent. It has other functions that can be turned on or off an alarm with several alarm options and hourly announce. This tells you the time on the hour except at night. The cover means once the clock is set it can be placed over the clock, so settings cannot be changed by accident. A very simple to use clock good for people who tend to accidentally push buttons or cannot understand digital time as has the option to have a different time telling style i.e. 10.45am is announced a quarter to 11.

Talking Books

Victor Reader Stratus 4M (95-STRATUS4MAU)

Plays DAISY and MP3 books and music on CDs, SD cards, and USB flash drives. Simple 4-arrow keys for navigation by chapter, section, page, music track. Built-in text-to-speech to play computer text documents. Support additional media sources, including USB flash memory and an SD card. Enjoy great sound quality for books and music.

Book drive cartridge USB adapter sleeve (CARTSLV)

For Victor Reader. Allows playback of talking book cartridges provided by VisAbility Library's postal service.

Victor Reader Stream (95-STREAM2AU-AUEN)

- Handheld media player for the blind and visually impaired.
- Plays DAISY books, MP3, MP4, EPUB, and many other media formats.
- Records voice and media with built-in microphone or line-in.
- Two built-in, human-sounding voices for a pleasant text-to-speech experience.
- Built-in wireless networking capability.
- Weighs less than 4 ounces (110 grams).

Blaze EZ with Premium Option Pack (930004)

Blaze EZ's wide range of media support and on-the-spot OCR & text-to-speech ensures endless hours of information and entertainment at the touch of a button, including newspapers, books, documents, restaurant menus as well as DAISY and media content. You can scan and read printed materials immediately, or save them for reading at your leisure.

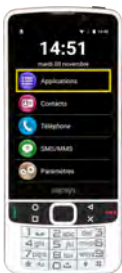

Blaze ET with Premium Option Pack (930006)

An advanced multi-player with OCR for books, music, documents, podcasts, recording, DAISY and more! Blaze ET sets a new standard for portable DAISY players. For the first time, blind and visually impaired consumers have access to pocket-sized book players integrated with OCR text-to-speech to capture and read aloud hardcopy printed documents on-demand.

Organisation

Timer Digital Large Print (TIMDLP)

This timer is simple to operate with only four buttons; Rest, Minute, Second, & Start/Stop. The LCD screen displays 3cm high digits.

Large Print Calendar (LPCAL)

VisAbility 2020 Large Print Calendar.

Calendars come in A3 poster size with bold black print on a white page, making them easy to read. There is plenty of space to write in your appointments and reminders.

Penfriend2 (DL110)

The Penfriend2 Audio Labeller is a recording device which links your recorded messages against individual codes and labels. Simply touch the recorder pen's nib to the label, record your description or memo, and stick the label on the item. To play your recording, just touch the pen's nib to the label again and hear your message automatically played back.

Writing

Letter Writing Guide Plastic (WRIGUI)

Our A4 black plastic letter writing guide makes it easier to see and feel the lines on your plain white copy paper. There are 14-line spaces. The guide works best when used with a clipboard to minimise movement over the paper.

Bold Lined Writing Pad A4 (WRIPA4)

This note pad provides easy to see dark grey lines to help orientate you to the page and assisting you in writing in a straight line. The note pad can be used for shopping lists, letters to friends/family, to do lists and conference meetings.

Bold Lined Writing Pad A5 (WRIPA5)

This note pad provides easy to see dark grey lines to help orientate you to the page and assisting you in writing in a straight line. The note pad can be used for shopping lists, letters to friends/family, to do lists and conference meetings. The A5 size will enable you to place it in your handbag or document wallet so that you have it on the go.

Assistive Technology Equipment

Video and Digital Magnification

Topaz OCR (2150245)

The TOPAZ OCR combines video magnification and text-to-speech features into a single desktop video magnifier. The high-definition camera produces a clear picture with sharp images and crisp text. The OCR camera displays a document on the touchscreen, and then TOPAZ processes, acquires, and reads aloud the document.

13" Acrobat Mini CCTV (ACROBAT- MINI)

Full high definition allows you to experience vivid colours and contrast, giving you a beautiful crystal clear picture and vibrant display. Its small footprint and lightweight design provides true portability from the classroom to home and work. A generous 13.3" display offers a large field of view, allowing you to see more on the screen.

Reveal 16 (FGPG-1300)

Reveal 16 is an intuitive, easy to use and foldable digital magnifier that offers an unmatched crisp, and crystal-clear image quality thanks to its 10x optical zoom camera.

Designed for seniors and elementary students, it enables to read documents, textbooks and newspapers as well as to write down notes. Reveal 16 also allows you to view distant objects like an artwork, your own backyard or even the whiteboard.

OmniReader (24201)

The omniReader® reads printed text to you by pressing a single button. You can follow the magnified text in high-contrast colours on the built-in screen, or simply listen as the omniReader reads text out loud. You can also use the screen to instantly magnify objects and text and display them in high-contrast colours to see them more clearly. Thanks to its lightweight design, built-in handle, and long battery life, you can pick it up and use it wherever you want – at home, at the office, and even on-the-go.

Video and Digital Magnification

ReadEasy Evolve (READEASY EVOLVE)

ReadEasy Evolve is a lightweight portable machine that reads to you. It is the world's first standalone reading machine capable of reading newspapers (A3 size).

With the push of a single button the ReadEasy Evolve photographs printed text & within seconds, begins reading it out loud. Letters, bank statements, books, recipes, product packaging etc. are all read with ease.

7" Amigo HD Magnifier (AMIGO)

Amigo HD displays amazing crystal clear HD images with vibrant colours, at any distance, on a large 7 inch widescreen LCD. So lightweight and simple to use, you will never want to be without it. Place it directly on your reading material or hold it up to view an item at a distance. Adjust magnification and contrast with an easy press of a button. Read price tags, menus, labels, street signs and more, anywhere!

Looky 5 inch (31003)

Handheld electronic magnifier. The Looky 5 incorporates a bright, vibrant and intuitive touch screen producing superb crystal clear images and exceptional brightness utilising the touch interface on the 5 inch screen.

Zoomax Snow 10 Pro (SNOW10)

Zoomax Snow 10 Pro is the perfect blend of portability, affordability, and advanced functionality typically found in devices costing much more. Standard features include OCR and speech, and a 3-way camera that adjusts for distance viewing, reading, or as a mirror. With an MP3 music player, the ability to store 1,000 images, and magnification to 19x, Snow 10 Pro delivers!

Screen Reading and Magnification

ZoomText Magnifier (ZX1-AU)

ZoomText Magnifier is an advanced screen magnification program that enlarges and enhances everything on the computer screen, making your computer easier to see and use.

SuperNova Magnifier & Speech download (single user) includes SMA (301005)

If your eyes tire easily or your sight flags as the day goes on, SuperNova Magnifier & Speech can take the strain for you. Switch on SuperNova's speech, sit back and give your eyes a rest. Adjust the amount of magnification and speech as your sight varies or as you switch to tasks that require different attention to detail.
